Creative legal marketing.

# Whisper & clients - campaigning for change.

We like to work with companies who are as concerned about civil rights, as civil wrongs. Most legal problems can be wide ranging and complex, so it's vitally important to present all your communications in a clear and concise way.

Whisper have the experience to create persuasive concepts that enable your brand to communicate clearly to prospects, clients and staff.

Our work includes digital designs, html emails, social media and websites as well as advertising, corporate comms, direct marketing, exhibition graphics and print.

And as we don't have the same costly overheads as other ad agencies, we can produce a wider range of creative routes for you to consider, for less of your budget. It's that simple.

For over 20 years we've provided joined-up marketing solutions for companies of every shape and size, from start ups and entrepreneurs to corporations and NGO's.

We believe working in partnership with our clients enables us to produce compelling marketing ideas - both online and offline - and because of this collaborative approach, our clients return to us time and time again.

We work extensively, but not exclusively, with clients in:

- Building & Landscape Design
- CAD/CAM • Exhibitions • Food & Drink • Healthcare
- Legal Services • Logistics • NGO's & Charities

**Do their insurers try to make you feel like the accident was your fault?**

The Department for Transport reports that in 2010, over 17,000 cyclists were injured on UK roads. So it's no wonder that insurance companies like to deal directly with cyclists when their clients have caused an accident, so they can pay out as little as they can legally get away with.

Our experience ensures that your claim is properly valued and that you get the correct compensation for injuries to yourself and damage to your bike.

We have over 400 lawyers in 24 offices across the UK who secure over \$200 million in personal injury compensation every year. We only act for injured people, never for insurance companies.

We talk to our clients in plain English and don't baffle them with jargon.

It costs absolutely nothing to talk to us, our personal injury services are free and you will keep 100% of any settlement. For more information contact us on;

Your recovery and quality of life are our immediate concern.

*“While I was in hospital, things at home were being fixed quickly, which was a big relief to my family.”*

Yvonne Abbess

Yvonne was cycling along George Lane in Woodford when she was hit by a car, causing severe brain injury. Her injuries were life threatening and required emergency surgery to remove a blood clot from her brain. This left her scarred and her intellectual and cognitive process to make decisions were severely impaired.

While Yvonne was still in hospital recovering, Slater & Gordon Lawyers quickly secured payments from the other side, so that her home could be adapted with a stair lift and ramp. In addition, we were able to secure a substantial lump sum and ongoing payments for her future care and quality of life.

Slater and Gordon Lawyers provide expert support for your legal, medical and social needs and we are committed to securing the best possible outcome for you and your family.
